Khemer Jay Deguinion

WordPress Developer

Experienced WordPress Developer adept at crafting custom themes to meet client needs. Skilled in front-end and back-end development, with a focus on building engaging, responsive websites to drive user engagement and meet business goals.

Experience

○ 2022

WSAP

WordPress Developer Intern

My role as a WordPress Developer Intern, I contributed to the development and customization of WordPress websites, plugins, and themes. I implemented front-end designs using HTML, CSS, and JavaScript, ensuring responsive and user-friendly interfaces. Collaborating with senior developers, I addressed technical challenges, optimized website performance, and stayed abreast of WordPress trends and best practices.

○ 2022-Present

Webee Labs and Born Digital

WordPress Developer & Laravel

During my time in the company, I specialized in WordPress development, focusing on creating responsive websites adaptable to various screen sizes. I also explored Gutenberg for intuitive content creation and utilized shortcodes to efficiently add dynamic elements

.

Additionally, I worked extensively with templates and custom themes, tailoring designs to meet client needs and enhance user experience. My contributions in team meetings aimed to improve development processes, refining my skills for future challenges in WordPress development.
